JAMES PRICE
GLASS & GLAZING

Far more than just glass

50 years of experience

From its early days over 50 years ago, as a small local glazing contractor, James Price Glazing has consistently developed its service and products. Today the Company boasts an impressive portfolio of clients for which it provides an extensive array of glazing solutions, for both external and internal environments.

This success has not come about by accident, but is due to a combination of competitive pricing, a swift response to customers' requirements and the use of the highest quality products.

Ducie House, Manchester

No. 1 Old
Hall Street,
Liverpool

Designed to offer a
Sheer Glass
External Façade

**Our independently tested system,
designed in-house,
gives architects and
specifiers the scope to create an
original frameless façade.**

**It is also suitable for other
applications such as Canopies,
Roofs, Internal Partitions, Glass
Cubicles and Boxes.**

- Large uninterrupted panels to give maximum light and vision
- Frameless or Framed Doors can be incorporated into the system
- Supported by specialist steelwork, tension structures or Glass Fins
- All toughened glass Heat Soak Tested
- Single or Double Glazed options
- Laminated glasses and screen panel options available
- Wide range of fittings available in a number of materials and finishes
- Meets latest CWCT & BSEN Standards test data
